Scope of Work, Assumptions and Limiting Conditions

Scope of work is defined in the Uniform Standards of Professional Appraisal Practice as " the type and extent of research and analyses in an assignment." In short, scope of work is simply what the appraiser did and did not do during the course of the assignment. It includes, but is not limited to: the extent to which the property is identified and inspected, the type and extent of data researched, the type and extent of analyses applied to arrive at opinions or conclusions.

The scope of this appraisal and ensuing discussion in this report are specific to the needs of the client, other identified intended users and to the intended use of the report. This report was prepared for the sole and exclusive use of the client and other identified intended users for the identified intended use and its use by any other parties is prohibited. The appraiser is not responsible for unauthorized use of the report.

The appraiser's certification appearing in this appraisal report is subject to the following conditions and to such other specific conditions as are set forth by the appraiser in the report. All extraordinary assumptions and hypothetical conditions are stated in the report and might have affected the assignment results.

1. The appraiser assumes no responsibility for matters of a legal nature affecting the property appraised or title thereto, nor does the appraiser render any opinion as to the title, which is assumed to be good and marketable. The property is appraised as though under responsible ownership.
2. Any sketch in this report may show approximate dimensions and is included only to assist the reader in visualizing the property. The appraiser has made no survey of the property.
3. The appraiser is not required to give testimony or appear in court because of having made the appraisal with reference to the property in question, unless arrangements have been previously made thereto.
4. Neither all, nor any part of the content of this report, copy or other media thereof (including conclusions as to the property value, the identity of the appraiser, professional designations, or the firm with which the appraiser is connected), shall be used for any purposes by anyone but the client and other intended users as identified in this report, nor shall it be conveyed by anyone to the public through advertising, public relations, news, sales, or other media, without the written consent of the appraiser.
5. The appraiser will not disclose the contents of this appraisal report unless required by applicable law or as specified in the Uniform Standards of Professional Appraisal Practice.
6. Information, estimates, and opinions furnished to the appraiser, and contained in the report, were obtained from sources considered reliable and believed to be true and correct. However, no responsibility for accuracy of such items furnished to the appraiser is assumed by the appraiser.
7. The appraiser assumes that there are no hidden or unapparent conditions of the property, subsoil, or structures, which would render it more or less valuable. The appraiser assumes no responsibility for such conditions, or for engineering or testing, which might be required to discover such factors. This appraisal is not an environmental assessment of the property and should not be considered as such.
8. The appraiser specializes in the valuation of real property and is not a home inspector, building contractor, structural engineer, or similar expert, unless otherwise noted. The appraiser did not conduct the intensive type of field observations of the kind intended to seek and discover property defects. The viewing of the property and any improvements is for purposes of developing an opinion of the defined value of the property, given the intended use of this assignment. Statements regarding condition are based on surface observations only. The appraiser claims no special expertise regarding issues including, but not limited to: foundation settlement, basement moisture problems, wood destroying (or other) insects, pest infestation, radon gas, lead based paint, mold or environmental issues. Unless otherwise indicated, mechanical systems were not activated or tested.

This appraisal report should not be used to disclose the condition of the property as it relates to the presence/absence of defects. The client is invited and encouraged to employ qualified experts to inspect and address areas of concern. If negative conditions are discovered, the opinion of value may be affected.

Unless otherwise noted, the appraiser assumes the components that constitute the subject property improvement(s) are fundamentally sound and in working order.

Any viewing of the property by the appraiser was limited to readily observable areas. Unless otherwise noted, attics and crawl space areas were not accessed. The appraiser did not move furniture, floor coverings or other items that may restrict the viewing of the property.

9. Appraisals involving hypothetical conditions related to completion of new construction, repairs or alteration are based on the assumption that such completion, alteration or repairs will be competently performed.
10. Unless the intended use of this appraisal specifically includes issues of property insurance coverage, this appraisal should not be used for such purposes. Reproduction or Replacement cost figures used in the cost approach are for valuation purposes only, given the intended use of the assignment. The Definition of Value used in this assignment is unlikely to be consistent with the definition of Insurable Value for property insurance coverage/use.
11. The ACI General Purpose Appraisal Report (GPAR™) is not intended for use in transactions that require a Fannie Mae 1004/Freddie Mac 70 form, also known as the Uniform Residential Appraisal Report (URAR).

MAINTAINED WITH MANY UPGRADES THROUGHOUT. NO SIGNS OF DEFERRED MAINTENANCE WERE NOTED AT THE TIME OF INSPECTION.

THE FOLLOWING ITEMS TO BE REPAIRED AND/OR REFURBISHED HAVE BEEN CONSIDERED AND REFLECTED IN THE SUBJECT'S OVERALL CONDITION RATING AND ARE AS FOLLOWS:
NONE AS THE SUBJECT IS NEW CONSTRUCTION.

Neighborhood Market Conditions

PROPERTY VALUES TO BE STABLE DUE TO AN UNBALANCED MARKET (HIGHER DEMAND, LOW OFFER AND HIGH INTEREST RATES) IN WHICH PROPERTIES IN AVERAGE CONDITION AND REALISTICALLY PRICED ARE GENERALLY SELLING IN BETWEEN 25 - 95 DAYS. TYPICAL FINANCING, CONVENTIONAL. GENERAL MARKET CONDITIONS ARE CONDUCIVE TO AN ACTIVE MARKET WITH VARIOUS TYPES OF LOW-RATE MORTGAGES TO CHOOSE FROM. THERE IS LITTLE OR NO IMPACT ON THE MARKET AS A RESULT OF LOAN DISCOUNTS, BUY DOWNS OR CONCESSIONS.

Zoning Description

R-6 RESIDENTIAL SINGLE-FAMILY DISTRICT (SEC. 35-310.05), SINGLE-FAMILY DWELLING (DETACHED) WITH A MINIMUM LOT SIZE OF 6,000 SQUARE FEET AND A MINIMUM LOT WIDTH OF 50 FEET, FOSTER FAMILY HOME, PUBLIC AND PRIVATE SCHOOLS.

SALES COMPARISON ANALYSIS COMMENTS:

COMPARABLES #1 - #3 ARE CLOSED SALES SELECTED FROM THE SUBJECT'S NEIGHBORHOOD AND NEARBY AREAS THAT REFLECT THE MOST RECENT AND SIMILAR AVAILABLE.

MOST CONSIDERATION WAS GIVEN TO COMPARABLES #1 AND # 2. COMPARABLE #1 IT IS THE CLOSEST TO THE SUBJECT AND THE CLOSEST GLA TO THE SUBJECT, AND SIMILARITIES IN CONDITION, CONSTRUCTION AND LOCATED WITHIN A RANGE OF 3 MILES FROM THE SUBJECT.

COMPARABLE #3 WAS WEIGHTED DUE TO THE SECOND LOWEST NET AND GROSS ADJUSTMENTS AND SIMILAR GLA TO THE SUBJECT.

ALL SALES ARE SIMILAR IN AGE, CONDITION, MARKET AREA AND ALL ARE LOCATED WITHIN SUBJECT'S COMPETING NEIGHBORHOODS. THEY WERE SELECTED AND WEIGHTED BASED ON THEIR VARYING SIMILARITIES TO THE SUBJECT PROPERTY AND ADJUSTED FOR DIFFERENCES.

THE COMPARABLES BRACKET THE MAJOR CHARACTERISTICS OF THE SUBJECT PROPERTY.

THE SUBJECT'S ESTIMATED MARKET VALUE IS SLIGHTLY ABOVE/BELOW THE RANGE OF SALES PRICES OF THE COMPARABLES PRIMARILY DUE TO DIFFERENCES IN (GROSS LIVING AREA, CONDITION, LOCATION) WHICH CUMULATIVELY HAVE RESULTED IN MINIMAL UPWARD/DOWNWARD NET ADJUSTMENTS TO ALL COMPARABLES.

AN EXTENSIVE SEARCH WAS MADE FOR PROPERTIES SIMILAR TO THE SUBJECT IN AGE, CONDITION AND QUALITY. HOWEVER, AFTER REVIEWING SEVERAL DATA SOURCES (REALQUEST, SABOR MLS) AND EXPANDING THE PARAMETERS OF THE NEIGHBORHOOD, NO RELEVANT SALES COMPARABLES WITH SIMILAR PARAMETERS WERE AVAILABLE IN THE NEAREST VICINITY. COMPARABLE RESEARCH INCLUDED THE ANALYSIS OF SALES IN DIFFERENT ASSESSOR PARCEL NUMBERS.

CONDITION RATINGS OF THE COMPARABLES WERE BASED ON FIELD OBSERVATIONS AND THE PROJECT DESCRIPTION FOR THE MODEL HOME AND THE INFORMATION SUPPLIED BY THE DATA SOURCES REVIEWED.

EVEN THOUGH, THE SUBJECT SITE SIZE WAS NOT DISCLOSED TO THE APPRAISER AT THE TIME OF ENGAGEMENT, AND EXTRAORDINARY ASSUMPTION HAS BEEN MADE THAT THE SUBJECT'S LOT SIZE IS AT 6,000 SF MINIMUM AS MANDATED BY THE ZONING R-6 WHERE THE SUBJECT WILL BE LOCATED.

SITE ADJUSTMENTS WERE BASED ON \$4.50 PER SQUARE FOOT OF ESTIMATED USABLE PAD AREA, LIVING AREA ON \$230.00 PER FOOT IN INCREMENTS OF 10% OF THE SUBJECT'S GLA.

THE ADJUSTMENTS IN SUBJECT'S NEIGHBORHOOD FOR BATHS IS \$9,000 FOR A HALF BATH, \$18,000 FOR A FULL BATH AND THERE IS NO ADJUSTMENT FOR BEDROOM, BUT FOR GLA SF AS IT IS MORE REPRESENTATIVE OF THE MARKET REACTION IN THIS AREA.

ADJUSTMENTS WERE MADE FOR VIEW CONSIDERING THE ELEVATION AND DEGREE OF UNOBSTRUCTED VIEW FROM EACH PROPERTY. THE ADJUSTMENTS AND CONCLUSIONS WERE BASED ON PHYSICAL OBSERVATIONS OF THE SUBJECT AND COMPARABLES, AND UPON THE DATA SOURCES REFERENCED IN THIS REPORT.

ALL COMPARABLES SALES SOLD WITHIN THE PREFERABLE RANGE OF 6 MONTHS AND WERE SELECTED DUE TO ITS AGE, CONDITION, QUALITY AND CRAFTSMANSHIP.

Condition Ratings and Definitions

C1 The improvements have been very recently constructed and have not previously been occupied. The entire structure and all components are new and the dwelling features no physical depreciation.*

**Note: Newly constructed improvements that feature recycled materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100% new foundation and the recycled materials and the recycled components have been rehabilitated/re-manufactured into like-new condition. Recently constructed improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (i.e., newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).*

C2 The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category either are almost new or have been recently completely renovated and are similar in condition to new construction.

**Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.*

C3 The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

**Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.*

C4 The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

**Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.*

C5 The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

**Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.*

C6 The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

**Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.*

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical /functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

The number of full and half baths is reported by separating the two values by a period. The full bath is represented to the left of the period. The half bath count is represented to the right of the period. Three-quarter baths are to be counted as a full bath in all cases. Quarter baths (baths that feature only toilet) are not to be included in the bathroom count.
